

Top Five Strategies to Drive Supplier Enablement

Implement

Implement a supplier collaboration or supplier information management system.

Puridiom has a proven record of efficient communications with suppliers, short purchase order cycles, few invoice discrepancies and good forecasting and plan accuracy rates.

Measure

Measure supplier enablement activities.

The Puridiom solution offers full tracking and accountability capabilities

Mandate

Mandate supplier adherence to standards.

Product data is carefully checked through the Puridiom Catalog Content Manager to assure it is technically correct and meets the buyer's validation rules, and that content is correct.

Channel

Channel more business via electronically enabled suppliers.

Puridiom's Catalog Content Manager simplifies and accelerates the supplier data on-boarding process in real-time.

Outsource

Outsource sub-processes related to supplier enablement.

Puridiom offers an Accounts Payable Outsourcing solution for all or part of an organization's accounts payable business functions.
